Experience

Software Developer
Pure Data Consulting Inc   01/10/2024 - Present

Building intelligent, user-centric web apps with LLM-based features to enhance interactivity and decision support. I use Next.js and Material UI to create responsive, scalable platforms, integrating AI for personalized experiences. I collaborate across teams to design adaptive frontends, manage backend workflows, and optimize interfaces.

Python Developer Intern
CodSoft   06/09/2023-08/01/2024

Improved skills in Python programming, refining problem-solving abilities, and becoming familiar with common development practices.

Education

Bachelor In Computer Science
Mohammad Ali Jinnah University   2021-2025
CGPA:3.46

HSSC
PECHS Foundation College Karachi   2018-2020

SSC
Army Public School Karachi   2016-2018
